PREFATORY NOTE.

The completion of the first volume of "The Herts Genealogist and Antiquary" gives me an opportunity of thanking those kind friends who have supported me in the undertaking.

My object has been to publish, in as concise a form as possible, such matter only as has not been hitherto printed, or such as, although printed, is practically inaccessible to the general public, *e.g.*, the list of Non-Parochial Registers now at Somerset House.

As to the method of publication by instalments of series of abstracts and other documents, I must beg a little indulgence of those who experience inconvenience thereby. My genealogical work is almost entirely done in spare time, and I have neither inclination nor opportunity to complete within a reasonable time any particular series of abstracts or records in a separate form. The Table of Contents, which it is intended to place at the beginning of each volume, will enable those interested to search easily through serial articles.

With the exception of the articles which appear under the name of Mr. A. E. Gibbs, the editor is responsible for the whole volume and trusts that, although his work has sometimes been executed with considerable rapidity, not more than the usual allowance of mistakes will be found.

To those who have assisted me as subscribers, to Messrs. Gibbs and Bamforth, of St. Albans, for the very great care they have bestowed on the printing of the volume, and finally to my wife and Mr. R. G. Ely for much kind assistance in the arduous task of preparing the Index, I desire to record my indebtedness, and in conclusion venture to express the hope that the work thus commenced has given and will continue to give satisfaction to those who consult its pages.

Marriage Licences.

Archdeaconry of St. Albans.

The Marriage Bonds now in the custody of the Archdeacon of St. Albans commence in 1661 and abstracts of the whole of them down to the year 1812 have been carefully made by Mr. A. E. Gibbs, and will be printed in due course. Notes of earlier licences, however, are contained in the Administration Act Books of the Archdeaconry (now at Somerset House), which the Editor has abstracted, and which are now printed first, to make the series as complete as possible.

Lady Margaret Harper.

VERY little appears to be known respecting this lady, the second wife of Sir William Harper, Lord Mayor of London, and a great benefactor to the town of Bedford. Mr. Blaydes in an article in *Bedfordshire Notes and Queries* (Vol. iii. p. 3) gives a note of the Marriage Licence from the Bishop of London's Registry dated 13 Sep., 1570, in which she is described as of the City of London, her surname being spelt "Leedare."

The following extract from the Burial Registers of St. Peter's in St. Albans will prove of interest:—

1590-1 Feb. 23 "William Lether father to the Ladie Harper."

I have not yet worked out any pedigree of the Lether family, but the above extract is sufficient to prove its connection with Hertfordshire, and I will only add here a copy of the note of grant of administration to the estate of the above-named William Lether which occurs in the Probate Registers of the Archdeaconry of St. Albans:—

"Will'mus Leathres. Octavo die mensis Maij pred. [1591] comissa fuit Ad^{mo} bonorū Will'mi Leathres parochie Set. Petr. ab intestato def. Thome Rapier civi et Clothworker Londin. de bene," &c.

It is curious to note with reference to the second coat of arms on Sir Wm. Harper's brass at Bedford, viz.: "Per chevron gules and argent three trefoils slipped counterchanged, on a chief of the second as many birds of the first," evidently intended to represent the arms of Lady Margaret Harper, Papworth gives the name Sir Wm. Harper with a note of interrogation.

Contemporaneous Memoranda Relating to the Battles of St. Albans.

On page seventy-nine of the volume called "Stonelham," the first of the series of Probate Registers of the Archdeaconry of St. Albans, occurs the following note respecting the earlier of the two battles which were fought at St. Albans. The note is of great importance from a historical standpoint, having, without doubt, been entered in the Register immediately subsequent to the event which it records. It is interesting to note that in the marginal heading to the paragraph the word "primum" is an interpolation by a later hand, presumably after the *second* battle of St. Albans had taken place.

The whole of the document is in Latin with numerous contractions. For convenience in printing it is here given in an extended form.

A Seventeenth Century Token.

A Rickmansworth Farthing Token has come into my possession which, I believe, has never previously been described. It is not given in Williamson's "Trade Tokens Issued in the 17th Century." The inscriptions run thus:—

Obverse = GEORGE WINGFIELD = Grocers' Arms.

Reverse = IN RICKMERSWORTH = G.A.W.

A. F. G.

The first of these is the fact that the system is not self-sufficient. It is necessary to import a large quantity of raw materials from abroad, and this is a serious disadvantage. The second is that the system is not very flexible. It is not possible to change the system very easily, and this is a disadvantage in a world which is constantly changing. The third is that the system is not very efficient. It is not possible to produce goods very cheaply, and this is a disadvantage in a world which is constantly competing for the lowest prices. The fourth is that the system is not very popular. It is not possible to get the best of both worlds, and this is a disadvantage in a world which is constantly looking for the best of both worlds. The fifth is that the system is not very secure. It is not possible to protect the system very easily, and this is a disadvantage in a world which is constantly looking for the best of both worlds.

The sixth is that the system is not very adaptable. It is not possible to change the system very easily, and this is a disadvantage in a world which is constantly changing. The seventh is that the system is not very flexible. It is not possible to change the system very easily, and this is a disadvantage in a world which is constantly changing. The eighth is that the system is not very efficient. It is not possible to produce goods very cheaply, and this is a disadvantage in a world which is constantly competing for the lowest prices. The ninth is that the system is not very popular. It is not possible to get the best of both worlds, and this is a disadvantage in a world which is constantly looking for the best of both worlds. The tenth is that the system is not very secure. It is not possible to protect the system very easily, and this is a disadvantage in a world which is constantly looking for the best of both worlds.

THE PROBLEM OF THE FUTURE

The problem of the future is a very serious one. It is not possible to predict the future very accurately, and this is a disadvantage in a world which is constantly looking for the best of both worlds. The first of these is the fact that the system is not self-sufficient. It is necessary to import a large quantity of raw materials from abroad, and this is a serious disadvantage. The second is that the system is not very flexible. It is not possible to change the system very easily, and this is a disadvantage in a world which is constantly changing. The third is that the system is not very efficient. It is not possible to produce goods very cheaply, and this is a disadvantage in a world which is constantly competing for the lowest prices. The fourth is that the system is not very popular. It is not possible to get the best of both worlds, and this is a disadvantage in a world which is constantly looking for the best of both worlds. The fifth is that the system is not very secure. It is not possible to protect the system very easily, and this is a disadvantage in a world which is constantly looking for the best of both worlds.

THE
HISTORY OF THE
CITY OF BOSTON

17

The first part of the history of the city of Boston is the story of its early settlement. The first settlers were the Puritans, who came to the city in 1630. They were led by John Winthrop, who gave the famous speech in which he said that they were going to be a city upon a hill. The city grew rapidly, and by 1690 it was one of the largest cities in the colonies.

The second part of the history of the city of Boston is the story of its growth and development. The city grew from a small settlement to a large city, and it became one of the most important cities in the colonies. It was the center of the revolutionary movement, and it was the site of many important events.

The third part of the history of the city of Boston is the story of its decline and revival. The city suffered a decline in the late 18th century, but it was revived in the early 19th century. It became a center of industry and commerce, and it grew into one of the largest cities in the world.

The fourth part of the history of the city of Boston is the story of its modern development. The city has continued to grow and develop, and it is now one of the most important cities in the world. It is a center of industry, commerce, and culture, and it is a city that is proud of its history.

The fifth part of the history of the city of Boston is the story of its future. The city is facing many challenges, but it is also full of opportunity. It is a city that is proud of its history, and it is a city that is looking to the future with confidence.

Transcripts of Parish Registers.

*Amongst the Probate records of the Archdeaconry of St. Albans, now deposited at Somerset House, are two original transcripts of registers, for the parishes of St. Stephens and Sandridge respectively, for the years 1561 to 1563 in each case. As will be seen from the list of Transcripts, now in St. Albans Abbey, which has been compiled by MR. A. E. GIBBS, transcripts for a few other years of St. Stephens Registers still exist. All these have been copied and will be printed verbatim.**

THE MEDICAL PROFESSION AND THE PUBLIC. The medical profession has a duty to the public to maintain the highest standards of medical education and practice. It is the responsibility of the medical profession to ensure that the public receives the best possible medical care. This requires a commitment to continuous learning and improvement. The medical profession must also be transparent in its dealings with the public and must be willing to accept criticism and feedback. Only by doing so can the medical profession earn the trust and respect of the public.

The first section of the report describes the background of the study, the objectives, and the methodology. The second section presents the results of the study, and the third section discusses the implications of the findings. The fourth section provides a conclusion and recommendations for future research.

The study was conducted in a laboratory setting, and the participants were all students at the University of [Name]. The participants were divided into two groups: a control group and an experimental group. The control group consisted of 10 students, and the experimental group consisted of 10 students. The experimental group was exposed to a treatment that was designed to improve their performance on the task. The results of the study showed that the experimental group performed significantly better than the control group on the task. This suggests that the treatment was effective in improving performance. The implications of these findings are that the treatment could be used to improve performance in other tasks. Further research is needed to confirm these findings and to explore the underlying mechanisms of the treatment.

The study was limited by several factors. First, the sample size was small, which may have affected the generalizability of the findings. Second, the study was conducted in a laboratory setting, which may not reflect real-world conditions. Third, the treatment was not fully controlled, which may have introduced confounding factors. Despite these limitations, the study provides valuable insights into the effectiveness of the treatment.

In conclusion, the study found that the treatment was effective in improving performance on the task. This suggests that the treatment could be used to improve performance in other tasks. Further research is needed to confirm these findings and to explore the underlying mechanisms of the treatment.

Eleven deeds are scheduled and I have abstracted them in the order (altho' erroneous) in which they occur. No. 3, the missing one is described as 'A Deed from Wm. Provision of Armour and Men by the Clergy of the Archdeacons of St. Albans, 1590.

[For many years subsequent to the date of the "Armada" the clergy as well as laymen were called upon to provide armour and men and hold themselves ready in case of foreign invasion. Amongst the Archdeaconry papers at St. Albans are many belonging to various years ranging from 1588 to 1626 which relate to the summonses to the clergy of the Archdeaconry. Those for 1590 appear as interesting as any others and set forth (without necessity for lengthy explanation) the whole proceedings.]

S^r in moste humble wise my duetie Remembred. I commende me to yo^r worships wth hope of yo^r good healtie the w^{ch} I pray god longe contynue to his good will and pleasure. The cause of my writtinge is to signifie vnto you howe that whearas I am commaunded to be at S. Albaudē y^e xvijth of this moneth it is so yt I cannot for I am sicke and haue bene this 10 wickē. And haue not in all this tyme bene able to goe abroade and god knoweth wheather ever I shall. And as concerninge y^e ffurniture w^{ch} I am appointed there to shew y^u shall vnderstand howe that I had the like commaundment above ij yeares now paste, at w^{ch} tyme I went vnto my lord of London, beinge

then, even as nowe also, farr vnable to doe it, and made my state then known vnto his L. beseeching his L. to concyder of the same, And so shewed vnto his L. his l're vnder his owne hand and seale, w^{ch} I then had to the ministers in Middlesex to craue their beneuolence, beinge then, even as now also in great debte, And my beuifice nothinge by reason of y^e Rotte y^t came amongst sheepe. The copie of w^{ch} l're I am bold to send vnto yo^r worshippe inclosed herin, vpon the sight of w^{ch} l're my lord commaunded me to go to S. Alband^e and there to sett downe what I was able to by. And his L. would talke wth my lord^e grace concerninge me and some other poore ministers. And accordinge to his L. commaundement I went to S. And the great debte that I am in, wherfore I moste humble beseeche yo^r worshippe even for god^e cause to stand my good ffriend for my case is most harde And more harder then I cane make it known. But this I say and god is my witnes I lye not. Provision for me or myne I haue non nor yet one crosse eather of silver or gold to bie bread or other fooade to put in our bellies. My maintenaunce this v yeaere hathe bene preaching here and there now and then wth my worshipfull good ffriend^e. Wherfore I doubt not but bothe my L. grace and my L. of London and yo^r worshippe wth all others y^t feare god will consider my case, beinge of honest life & conversation and one y^t searveth y^e Lord. And so I cease to trouble yo^r worshippe any farther commendinge you to the tuition of the all mightie who ever blesse you and guide you wth his holie spirit amen this xvjth day of November, wth a weake bodie, a faint heart and a ffeable hand as knoweth y^e lord. Yo^r worships poore ffriend and well willer for ever to commaund.

[The last paper connected with this business is the draft letter or certificate sent by the Archdeacon to the Bishop of London. It is unnecessary to copy it in full as it is more or less a repetition of the various answers of the clergy given above. It gives the additional information that St Michaels was 'vacat' also that 'Mr Wildeblode vicar of Redborne beinge charged wth a Corslet furnished hathe neither shewed nor certified any thinge.' Mr White minister of Northaw & Mr Warren vicar of Hexton are likewise reported as having certified nothing. Mr Butler vicar of Sarrett is noted as having shewn a musket well furnished 'by his sonne'.]

Transcripts of Parish Registers.

(CONTINUED FROM PAGE 64.)

The Parish Registers of Northaw perished in the fire which destroyed the church on Sunday the 20th Feb. 1881, a full account of which will be found in the HERTS ADVERTISER of Feb. 26th and March 19th of that year. Transcripts of more than sixty years are now in the custody of the Archdeacon of St. Albans, and I need offer no apology for printing them verbatim. A complete restoration of the Registers is an impossibility, but many items may be supplied from the Monumental Inscriptions recorded by Cussans and others, and I am greatly indebted to the Rev. F. C. Cuss for kindly furnishing me with copies of a number of entries taken by him previous to the destruction of the registers. I have incorporated Mr. Cuss's extracts with the transcripts, appending his initials to each.

RECENT ADVANCES IN THE TREATMENT OF

CHRONIC DYSPEPSIA

The treatment of chronic dyspepsia has been the subject of much discussion and controversy. The various theories advanced to explain the pathogenesis of this condition have led to the development of many different methods of treatment. The most common of these are the use of antacids, anticholinergics, and prokinetics. Each of these classes of drugs has its own mechanism of action and its own set of side effects. The use of antacids is based on the theory that the symptoms of chronic dyspepsia are caused by an excess of gastric acid. Anticholinergics are thought to act by reducing the secretion of gastric acid. Prokinetics are believed to act by increasing the motility of the gastrointestinal tract. The use of these drugs has been found to be effective in the treatment of chronic dyspepsia in many cases. However, the use of these drugs is not without its dangers. Antacids can cause constipation and may interfere with the absorption of other drugs. Anticholinergics can cause dry mouth, blurred vision, and urinary retention. Prokinetics can cause nausea and vomiting. Therefore, the use of these drugs should be carefully monitored. In addition to the use of drugs, other methods of treatment have been suggested. These include the use of diet, exercise, and relaxation techniques. The use of diet is based on the theory that certain foods can irritate the stomach. Exercise is thought to act by increasing the motility of the gastrointestinal tract. Relaxation techniques are believed to act by reducing the stress which can contribute to the development of chronic dyspepsia. The use of these methods has been found to be effective in the treatment of chronic dyspepsia in many cases. However, the use of these methods is not without its dangers. Diet can cause malnutrition. Exercise can cause dehydration and may interfere with the absorption of other drugs. Relaxation techniques can cause drowsiness and may interfere with the absorption of other drugs. Therefore, the use of these methods should be carefully monitored.

the following year, and in the year 1781, the
 first time, the British army, under the command
 of General Cornwallis, was defeated by the
 Continental Army, under the command of
 General Washington, at the Battle of
 Yorktown. This battle was the last
 major battle of the American Revolutionary
 War, and it resulted in the British
 evacuation of the city of Yorktown, and
 the eventual signing of the Treaty of
 Paris in 1783, which recognized the
 independence of the United States.

THE AMERICAN REVOLUTION

The American Revolution was a period of
 conflict between the thirteen original
 states of the United States and the
 Kingdom of Great Britain, from 1765 to
 1783. It was the result of a long
 struggle for independence, which began
 in the 1760s, when the British
 government imposed a series of taxes on
 the colonies, in order to pay for the
 costs of the Seven Years' War. The
 colonists, who were already resentful of
 British rule, saw these taxes as a
 violation of their rights, and they
 organized a series of protests, which
 culminated in the Boston Tea Party
 of 1773. In response, the British
 government passed the Coercive Acts,
 which were designed to punish the
 colonies for their actions. This led to
 the outbreak of the American
 Revolution in 1775, when the
 Continental Army, under the command
 of General Washington, fought the
 Battle of the Clouds, and the Battle of
 Brandywine.

Marriage Licences. Archdeaconry of St. Albans.

(CONTINUED FROM PAGE 218.)

[The series of Licences of which comparatively full notes are contained in the Archdeaconry Act Books, was completed on page 218 ANTE. After the Commonwealth period lists of licences granted each year are given containing the surnames of the parties only. In the introductory note to the series on page 11 ANTE, I stated that the Bonds now in the custody of the Archdeacon of St. Albans commenced in 1661, but in the course of his work of abstracting the contents of these bonds Mr. A. E. Gibbs discovered an earlier bundle, dating back as far as 1611. A comparison of the Bonds with the notes in the Act Books shows that in the great majority of cases the former contain much and important new information; in many cases no note is to be found in the Act Book to correspond with the Bond, and in other cases there are notes of licences where the bonds cannot now be found. In spite of the fact that there will be a certain amount of repetition, I have requested Mr. Gibbs to abstract the whole of the newly-discovered bonds and incorporate them with his series, the publication of which is commenced herewith.—ED.]

Shepherd & Freeman Families.

The Mr. Samuel Basnet whose name appears at the beginning of the entries given (p. 213 ante) from the Shepherd-Freeman Family Bible, appear to be identical with the minister of that name in Coventry who was silenced by the Act of Uniformity in 1662. A pedigree of the Basnett family appears in Hunter's *Familiae Minorum Gentium* (p. 371 of the volume recently issued by the Harleian Society).

The following Monumental Inscription has been furnished me by Mr. W. M. Myddelton from the Saints' Chapel in St. Albans Abbey:

"This Vault is the property of | M^{rs} MARY FREEMAN SHEPHERD | who purchased and built it 1768 | as a Burial place for Herself and Family. | Therein are deposited the Earthly Remains | of D^r JONATHAN GREW & MARY his Wife | NATHANIEL SHEPHERD Esq. & MARY his Wife | NATHANIEL SHEPHERD Esq. their Son | the Beloved Uncle, Godfather and | Benefactor of MARY FREEMAN SHEPHERD | and of ANTHONY FREEMAN Gent | and ANN his most excellent Wife | Father & Mother of MARY FREEMAN SHEPHERD | who desires to be Buried here also | in whatsoever part of the World | She may happen to Die. | Also | here are Deposited the Remains | of the above nam'd MARY FREEMAN SHEPHERD | who died June 29th 1815 Ætat. 83."

The above inscription is incorrectly printed by Mr. Urwick in "Nonconformity in Herts," p. 190, who also gives (copying from Clutterbuck) another inscription from the floor of the presbytery by the Lady Chapel close by the shrine of St. Alban:

"Jon. Grew dyed 1711. Mary Grew, his wife, 1719. Anne Freeman, her granddaughter, 1732."
